

PROCTER AND GAMBLE FRAMING HOUSE DECONSTRUCTION

St. Bernard, OH

Scope of Work:

Selective Demolition, Deconstruction

Project Detail:

Deconstruction of structurally unstable timber/stone plant building. Live plant utilities/production equipment maintained on 1st Floor of Building. Building surrounded by active utility bridges that were critical to plant production operations. Set up a system of manned gates to prevent unauthorized personnel from entering work area. Work completed ahead of schedule.
