Service Detail:

O'Rourke Wrecking Company provides our clients with a full range of environmental solutions to manage liabilities associated with asbestos, lead, underground storage tanks, contaminated soil, and PCB's and many more.

When environmental hazards are involved, it's more than just a routine demolition or dismantlement project. You need an experienced, highly knowledgeable contractor to do the job right - safely, cost-effectively, and in full regulatory compliance. O'Rourke Wrecking Company is the right choice to safely manage your environmental concerns.
