

WASTE MANAGEMENT / RECYCLING

Scope of Work:

- Onsite/Mobile Concrete Crushing
- Scrap Recycling/Processing
- Concrete Breaking & Processing
- Asset Recovery
- Equipment Salvage
- Plant Decommissioning/Investment Recovery
- LEED Trained Managers

Service Detail:

O'Rourke Wrecking Company can help its clients achieve their green-building and sustainability goals by optimizing the reuse of debris, earn valuable points toward LEED® certification and reduce the overall environmental impact. You can recycle most common Construction & Demolition debris including concrete, porcelain, rigid plastics, tile, lumber, metals, masonry, plastic, rock, carpet, insulation, equipment and more. O'Rourke is always working on ways to recover new materials to save you money on your project.

O'Rourke owns a 55 acre State permitted Construction and Demolition Landfill & Recycling Facility located in Hooven, OH. This facility allows us to closely manage our waste streams and maximize our re-use efforts in-house when geographically feasible. [Whitewater Reclamation & Recycling Facility](#)
